

Footpath Planks

100% Recycled Plastic

Manufactured from 100% waste plastic, this material choice relieves pressure on landfill. Frostproof and rot-resistant, it repels water making it suitable for outdoor use all year round, without any need for painting or additional treatments, and comes with a 20-year warranty.

A safe choice. Tried and tested over many years, our footpath planks have an enviable track record. Whether sun, sea, salt or sand, they are splinter-free, non-toxic, free of additives or preservatives, UV-resistant and extremely durable.

These planks are ideal for:

- Walkways
- Footpaths
- Bridges
- Jetties
- Piers

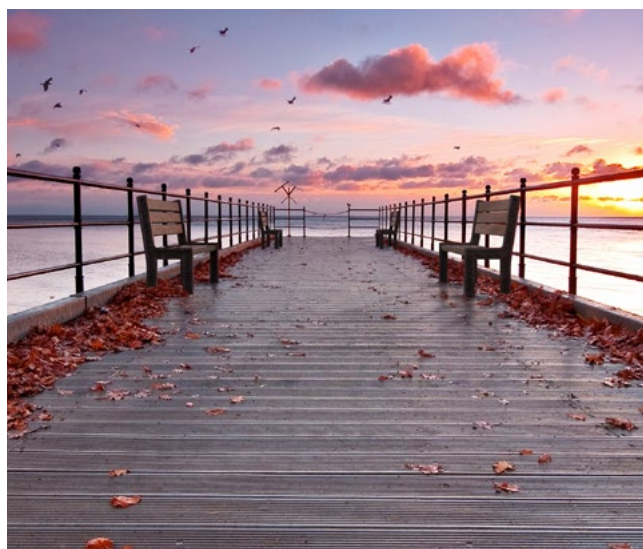

Easy to work with
using conventional
tools

Anti-slip,
grooved design
PTV 85

Overview of spans

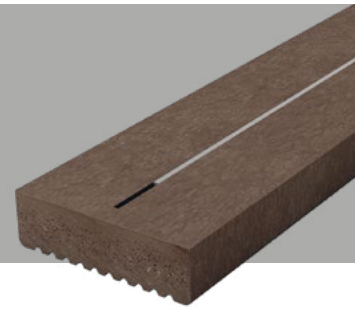

Footpath plank (cm)	Uniformly distributed load: 3 kN/m ² Point load: 1.5 kN	Uniformly distributed load: 5 kN/m ² Point load: 2 kN
4 × 17 ¹	*60 cm	60 cm
4 × 17 reinforced ¹	*100 cm	*100 cm
4 × 19.7	53 cm	46 cm
4 × 19.7 reinforced	*80 cm	80 cm
4.8 × 16.5	*60 cm	56 cm
4.8 × 16.5 reinforced	*80 cm	80 cm
6 × 19.7	*80 cm	80 cm
6 × 19.7 reinforced	*100 cm	100 cm

¹ two footpath planks each measuring 4 × 17 cm with tongue and groove were tested in combination | * Maximum span due to the creep properties

Optional: retrofitted reinforcement

- Flat steel: 6 x 25, galvanized
- Centred on the underside
Ends approx. 7 before end of profile
- Flat steel fixed with clips
- Double reinforcement available on request
- For planks 6 x 19.7 stronger reinforcement for increased spans available on request

Footpath planks

- Lengths: from 100 – 300 cm
- Thickness: 4/4.8/6 Width: 17 / 19.7 depending on version
- Splinter-free, rot-proof, free of harmful substances
- Available with steel reinforcement for wider spans
